

# CS 440 Meeting Minutes

Group: 13

Date: 6 February 2021

Time: 4:10 PM

Duration: 40 Minutes

Present, on time: Tyler, Jasmine, Mansi

Present, not on time: N/A

Absent: Spencer

Synopsis:

All three present members of the group, for about one minute, lamented over the absence of the fourth partner Spencer. From there, we discussed Tyler's hatred for PHP and the next roles for the coding project. Roles were assigned to all group members in attendance.

Recent Accomplishments:

- Tyler set up the FireBase DB account and information on it
- Tyler created the first, very empty, app prototype for the coding project
- Jasmine got clarification on the setup from TA's
- Mansi helped to clarify what was due and not.

Current Activities: For the coding project, the group collectively decided on an Android app for this project. Currently, the most barebones part of the app has been created and FireBase attached to it. The main goal now is to focus on setting up the UI for the login, a page to enter in the name of the national park the user wants, and hopefully have that be used to identify the actual park and store the info in-app. For the development project, we need to continue on as we have been during the last week. At the very least, we can set up the basic info, like clients and such, in a shared template document.

## Action Items:

Mansi: Set up Firebase Realtime DB, attempt to get a dummy park info stashed into it.

Tyler: Staple the NPS API into the app, see if transferring data will be simple for this

Spencer: N/A, not here to discuss roles

Jasmine: Generate the UI for the Welcome Page, Input Page for Nat'l Park Name, tie logins into Firebase Authenticator

All: Get these done before the next meeting, look to JIRA if a group member needs to be reminded about it. Have Mansi and Jasmine get onto the github repo for better version control. If this proves to be a bit difficult, email the professor for a link to get into the repo itself. Continue adding data to the report for the design project, all should be prepared to talk about this next meeting.
